ARTICLE II

ESTABLISHMENT OF CONTINGENCY TRUST FUND

SECTION 2.01. The Plan and trust fund hereby established shall be known and described as the Contingency Trust Plan (hereinafter referred to as the "Plan").

SECTION 2.02. The Plan shall be established as of the Effective Date, and this agreement shall be effective from such date in respect of Participants entering into an agreement in form the same as or substantially similar to this agreement on or before such date and, in respect of Participants entering into such an agreement after such date, on the date of entering into thereof.

ARTICLE III

PAYMENTS FROM PARTICIPANTS

SECTION 3.01. Each Participant who becomes such prior to the Effective Date shall, subject to the provisions of Section 3.10, make an initial payment of Ten Thousand Dollars (\$10,000.00) to the Trustee in respect of the Plan, on or before the Effective Date, and each Participant who becomes such after the Effective Date shall make such initial payment before or at the time of becoming a Participant; provided that with respect to Participants who become such after the Effective Date, the Commission may require such additional payment or payments so that the Withdrawal Credits of all Participants are equal in amount.

SECTION 3.02. Save as hereinafter provided, at any time when the capital of the Trust Fund is or would be reduced by reason of the payment or proposed payment by the Trustee of any Claim, each Participant (except the person in respect of whose Default such Claim was made) shall pay into the Trust Fund his *pro rata* share of such Claim at the time or times and in the manner required by the Trustee. For the purposes of this Section 3.02 such "*pro rata* share" shall be determined as follows: The Claim which is the subject of payment together with all other Claims paid in respect of any Default of the same Participant shall be aggregated and there shall be deducted therefrom the amount of such Participant's Withdrawal Credit. The balance, if any, shall be divided by the number of Participants (except the person in respect of whose Default such Claim was made) and the resulting amount, after adjustment by the Trustee as hereinafter provided, shall be the *pro rata* share up to the next highest even multiple of \$1,000.00. Notwithstanding the foregoing provisions of this Section 3.02, a Participant who participates in the Plan after the Effective Date may, if the Trustee and the Commission jointly so determine in their discretion, be excluded from any obligation to pay all or a part of his *pro rata* share in respect of any Claim paid by or presented to the Trustee or of which the Trustee was aware during any period prior to six months after he became such a Participant. In the event of such a determination the *pro rata* shares of all other Participants required to pay *pro rata* shares hereunder shall be proportionately increased by the aggregate amount of the *pro rata* share of such Participant so excluded from his obligation to pay under this Section 3.02.

SECTION 3.03. The Participant in respect of whose Default any Claims are paid shall be liable to pay and shall pay to the Trustee the aggregate amount of all such Claims paid, so that at all times the Withdrawal Credit of such Participant is equal to not less than Ten Thousand Dollars (\$10,000.00) or such other amount as may from time to time be required by the Commission under Section 3.10 hereof. This liability of any such Participant to the Trustee under this Section 3.03 shall not adversely affect the right of the Trustee to require an assignment of and to enforce any such Claim and any security or guarantee therefor, provided that any amount so recovered shall be added to the Withdrawal Credit of such Participant and form part of the Trust Fund and shall reduce by such amount the liability, if any, of such Participant under this Section 3.03.

SECTION 3.04. Notwithstanding the fact that a Participant shall be in Default hereunder or shall have failed to perform or observe any obligation or condition hereof on his part to be performed or observed, such Participant shall remain liable in respect of his *pro rata* share under the provisions of Section 3.02 hereof.

SECTION 3.05. In the event one or more Participants shall fail to pay any *pro rata* share or other amount required to be paid to the Trustee pursuant to Section 3.02 hereof, such deficiency shall be, at the discretion of the Trustee, added on a *pro rata* basis among the remaining Participants required to pay such a *pro rata* share.

SECTION 3.06. Subject only to the provisions of Section 3.07 hereof, and without limiting the generality of any other provisions of this agreement, the Trustee may at any time and from time to time require an additional payment into the Trust Fund from a Participant at any time when the Withdrawal Credit of such Participant is for any reason whatsoever less than Ten Thousand Dollars, (\$10,000.00) or such greater or lesser amount as the Commission may from time to time require under Section 3.10 hereof, provided that the Trustee need not require an additional payment otherwise required hereunder, to the extent such additional payment would result in a Withdrawal Credit for a Participant in excess of Ten Thousand Dollars (\$10,000.00) or such greater or lesser amount as aforesaid.

SECTION 3.07. Notwithstanding any other provision hereof other than Section 3.10 hereof which shall not be affected by this Section 3.07, the obligation hereunder of a Participant to make additional payments into the Trust Fund shall be limited in any one period of 365 days to a maximum amount of Ten Thousand Dollars (\$10,000.00).

SECTION 3.08. The Trustee may at any time and from time to time retain and set off against any unpaid or unperformed liability or obligation hereunder of any Participant any amount in its possession howsoever obtained of which the Participant would, but for this provision, be entitled to receive payment.

SECTION 3.09. A Participant shall not be obligated to make any payment in addition to the initial payment under Section 3.01 unless and until he shall have received a notice of the amount to be paid from the Trustee, but shall make any such payment within 60 days after receipt of such notice, and thereafter shall be liable to pay interest at the rate of 10 per cent per annum compounded annually on the amount unpaid from time to time.

SECTION 3.10. The Commission may at any time and from time to time require that the amount of the Withdrawal Credit of any Participant shall be greater than or less than Ten Thousand Dollars (\$10,000.00), in which event the Trustee shall, within such period as the Commission may require, demand such additional payments from Participants as may be thereby required to eliminate any Withdrawal Credit deficiency, and the Participants shall pay such amounts forthwith to the Trustee hereunder, or, as the case may be, pay such amounts to Participants as may be thereby required to eliminate any Withdrawal Credit excess.

SECTION 3.11. Wherever a Participant has failed to pay to the Trustee any amount required to be paid hereunder, as a result of which other Participants have made additional payments hereunder, and amounts are subsequently paid to or recovered by the Trustee in respect of the amounts previously not so paid by such Participant, such amounts subsequently paid shall be credited on a fair proportionate basis, having regard to all the facts, among the Participants who have made such additional payments and shall reduce the amounts otherwise required to be paid by such Participant hereunder; provided further, that amounts subsequently so paid shall, where amounts in respect thereof were due but not paid by other Participants, reduce the liability of such Participants on a fair proportionate basis having regard to all the facts. The Trustee shall determine what is a fair proportionate basis as aforesaid and its decision shall be final and binding.

ARTICLE IV TRUST FUND

SECTION 4.01. The Trustee shall hold all money and other property, if any, received by it from Participants or others pursuant hereto or in respect hereof and all income on any such money or from any such property, and all rights hereby conferred, in trust for the benefit of such of the holders of claims from time to time as the Trustee may from time to time in its discretion appoint, and subject thereto and hereto, for the benefit of the Participants, and all such money, property and income thereon or therefrom shall constitute a trust fund to be dealt with and distributed in accordance with the terms of this agreement. The capital of the Trust Fund shall mean all amounts held by the Trustee as part of the Trust Fund other than amounts designated from time to time by the Trustee in its discretion as payable to a client, Participant or other person hereunder.

SECTION 4.02. The Trustee shall maintain a record of amounts received from, on behalf of or in respect of each Participant and shall distinguish in such record the Section hereof pursuant to which each such amount was received and shall show in such record the Withdrawal Credit account from time to time of each Participant. All amounts received by the Trustee into the Trust Fund shall be credited to a Participant or Participants and the Trustee's decision in respect of such crediting shall be final and conclusive, provided that the Trustee may in its discretion change any such crediting from time to time as it sees fit. No crediting of an amount to a Participant shall, as such, give such Participant any rights thereto, and a Participant shall only be entitled to receive any amounts from the Trust Fund in accordance with the specific provisions hereof respecting payments to a Participant.

SECTION 4.03. The Trustee shall keep the Trust Fund invested in Approved Securities.

SECTION 4.04. The Trustee shall collect and receive all income on or from the Trust Fund, and shall, after deducting therefrom the fees, costs charges and expenses referred to in Section 7.07 hereof, and subject as hereinafter provided, distribute the balance of such income to the Participants. Income on or from the Trust Fund received during the period ended on the last day of September in each year (which date is herein referred to as the "determination date") shall, subject to the provisions of Sections 4.05 and 4.06 hereof, be distributed annually on or before the last day of November in each year (which date is herein referred to as the "distribution date"). Each Participant having a Withdrawal Credit on the determination date shall, subject as hereinafter provided, receive a *pro rata* portion of the income distributed in respect of the period ended on such determination date. The Trustee shall determine in its discretion such reasonable *pro rata* portions of income to each Participant in respect of the distribution based on the amount of the Withdrawal Credit of each Participant from time to time during such period and the portion or portions of the twelve month period covered thereby and shall forward to such Participant by first class mail on or before the distribution date a cheque for the *pro rata* portion of income so determined. No Participant shall be entitled to a distribution of income hereunder if on the distribution date any Claim has been made in respect of such Participant or there has been a failure by the Participant to perform or observe any obligation or condition hereunder on its part to be performed or observed. If and so long as any such Claim exists and has not been paid by the Participant or any such failure continues and has not been rectified by the Participant such income and all other income thereafter accruing to such Participant shall be added to such Participants' Withdrawal Credit, and, where applicable, shall be treated by the Trustee in its discretion as discharging the liability to make a payment or payments under Article III hereof, in which event the amount so credited shall

form part of the capital of the Trust Fund. The Trustee may pay any income tax or other tax that it honestly and in good faith believes to be payable in respect of any receipt, crediting or payment of any such income to, or in respect of a Participant and any such payment shall constitute a discharge *pro tanto* of any obligation of the Trustee hereunder in respect of the payment or crediting of such income to such Participant.

SECTION 4.05. Notwithstanding the provisions of Section 4.04 hereof, the Trustee shall, if so required by the Commission or a Participants' Request, apply all or any part of the income of the Trust Fund to acquire such insurance payable to the Trustee having such coverage and with such limits, deductibles and other terms as the Trustee shall see fit, to insure against all or any part of the obligation of Participants hereunder to make payments into the Trust Fund and to apply any proceeds thereunder in discharge *pro tanto* of any such obligation, provided that no such application of proceeds in respect of any such obligation shall be treated as a payment by a Participant for the purpose of limiting the obligation of a Participant to make additional payments into the Trust Fund in any one period of 365 days pursuant to Section 3.07 hereof.

SECTION 4.06. Notwithstanding the provisions of Section 4.04, the Trustee shall from time to time at the request of the Commission credit all or any part of the income of the Trust Fund to the capital of the Trust Fund, in which event no part of such income so credited shall be paid to any of the Participants.

SECTION 4.07. The Trustee shall keep complete records of its administration of the Trust Fund on the

basis of a fiscal year ended on the last day of in each year. A copy of the financial statements of the Trust Fund certified by the Trustee shall be delivered to the Commission within three months after the end of each fiscal year and to the Participants within six months after the end of each fiscal year. Such statements shall include, where applicable, the following information:

- (a) the amount of the Withdrawal Credit of each Participant;
- (b) the amount owing hereunder by any Participant to the Trustee by reason of any provision hereof which has not been paid when due;
- (c) the amount of all receipts and the source thereof;
- (d) the amount of all payments to Participants and in respect of Claims of clients of Participants;
- (e) a complete statement of all receipts and disbursements in respect of each Participant who was in Default during such fiscal year;

- (f) a statement of all credits and debits to the capital of the Trust Fund; and
- (g) such other information as the Commission may from time to time require.

The Commission may determine from time to time what part of the foregoing information shall be delivered by the Trustee to Participants.

SECTION 4.08. The Trust Fund may, at the sole discretion of the Trustee from time to time, constitute a single fund in respect of all Participants or separate funds in respect of each Participant, which separate funds may nonetheless be dealt with for the purposes of the convenient administration of the Plan as though they were a single fund.

SECTION 4.09. No Participant may assign any right or interest he may have in the Trust Fund to any person nor shall any Participant, his heirs, executors, administrators, successors or assigns, assert any right at any time over and against the Trustee in respect of the Trust Fund or any Withdrawal Credit to which he might but for this Section be entitled.

ARTICLE V

CLAIMS ON THE TRUST FUND

SECTION 5.01. The Plan is established to provide for the payment out of the capital of the Trust Fund of the amount of claims of clients of Participants which meet the requirements hereinafter set forth in such amounts and to such of such clients as the Trustee shall in its discretion from time to time determine and appoint,

- (a) a claim shall be limited to the direct out-of-pocket loss suffered by a person who was a *bona fide* client of a Participant at the time the liability duty or obligation was first incurred by such Participant in respect of which such loss thereafter arose, and such loss shall have arisen either due to,
 - (i) the failure of such Participant to refund any payment received from a client for a security ordered by and not delivered as directed by that client, or to pay as directed by a client funds received by such Participant in connection with the sale of a security on behalf of that client, or
 - (ii) any conversion of funds or securities of such a client while in the hands of or under the control of the Participant or by or on behalf of or for the benefit of the Participant or a partner, director, or shareholder of the Participant, but only to the extent the Participant does not have a bond or insurance providing for payment in respect of any such conversion;

- (b) no claim shall be eligible for payment if the client making such claim was, at the time the liability giving rise to the loss was first incurred or at any time thereafter prior to payment,
 - (i) a Participant or a partner, director, officer, employee, agent or shareholder of a Participant or an Associate of any of the foregoing, or
 - (ii) a person or company registered under the provisions of *The Securities Act*, or an Associate of any thereof, or
 - (iii) a person or company described in paragraph 3 of subsection 1 of section 19 of *The Securities Act*; and

- (c) no claim shall be eligible for payment to the extent that the amount of such claim is in excess of \$5,000.00 and any amount received by the client in payment of any loss giving rise to such claim otherwise than out of the Trust Fund shall be applied to reduce the said maximum amount of \$5,000.00. Claims by a group of persons acting together in a single transaction shall be considered to be a single claim subject to the maximum limitation and the reduction provided for in this subparagraph c.

If any question or doubt shall arise as to whether or not any claim meets the requirements of this Section 5.01 as to eligibility for payment out of the capital of the Trust Fund either in whole or in part, the Trustee in its discretion shall determine such eligibility and any decision of the Trustee shall be final and conclusive for all purposes hereof and as against all persons. For greater certainty, it is hereby agreed and declared that no client of any Participant shall have any absolute or vested right to payment of any claim against the Trustee or the Trust Fund, notwithstanding such claim may qualify and be eligible for payment in every respect except only that the Trustee shall not have in its discretion appointed such client to receive such payment.

SECTION 5.02. A Claim for payment out of the Trust Fund may only be made by a claimant giving written notice of such Claim to the Trustee with full particulars thereof, including the amount thereof, any security or guarantee therefor, and any payment or recovery in respect thereof. A Claim shall be deemed to have been made when written notice thereof is received by the Trustee.

SECTION 5.03. As a condition precedent to the authorization by the Trustee of the payment of any Claim, the Trustee may, in its discretion, require that the claimant making such Claim, execute and deliver or arrange for the execution and delivery of such documents as the Trustee in its discretion

deems necessary. The Trustee shall be entitled to seek the advice of Counsel as to the documentation necessary to support a Claim and shall be entitled to rely on the opinion of Counsel as to the sufficiency of the documentation required and presented by a Claimant for the purposes of paying any Claim.

SECTION 5.04. As a condition precedent to the payment of any Claim, the Trustee may, in its discretion, require that the client making such Claim, execute such documents as Counsel may advise are necessary or desirable for the purpose of transferring to the Trustee the interest of such client in the Claim so as to subrogate the Trustee to the position of the client and enable the Trustee to prosecute the proceedings contemplated by Section 7.06 hereof.

SECTION 5.05. Notwithstanding any of the foregoing provisions of this Article V, the following limitations in respect of payments of Claims shall apply,

- (a) the maximum aggregate amount of Claims which may be paid in respect of the Default of any one Participant shall never exceed \$10,000.00 multiplied by the number of Participants not in Default at the time of the first Default of the particular Participant;
- (b) the Trustee may in its discretion pay Claims in one or more instalments as it sees fit, in which event all Claims of a Participant which the Trustee has determined and appointed for payment shall be paid on the same basis;
- (c) no Claims in respect of the Default of any Participant shall be paid by the Trustee until the Trustee is reasonably satisfied that all Claims likely to be made in respect of Defaults of a Participant have been made or reserved against by the Trustee;
- (d) the Trustee may in its discretion reserve against Claims which it thinks may be validly made and any such reservation shall be the equivalent of payment of such Claim for the purposes of requiring additional payments of *pro rata* shares under Section 3.02 hereof.

SECTION 5.06. The Trustee may in its discretion pay any Claim notwithstanding that no demand for payment has been made by the client against a Participant in respect of whom a Default has occurred or that no action has been commenced or that no final judgment of a court of competent jurisdiction has been obtained against such Participant or that not all reasonable efforts have been taken to have such judgment satisfied; provided that the Trustee may require any or all of the foregoing steps to be taken by the client making the Claim hereunder before paying the same or appointing such client for payment in respect thereof.

SECTION 5.07. The Trustee, on being satisfied that a Claim complies with the requirements of this Article V, may in its discretion appoint the person making such Claim to receive payment of all or any part thereof, in which event the Trustee shall, subject to the provisions of paragraph *b* of Section 5.05 hereof, promptly forward by first class mail to the address specified by the client a cheque payable to the client in the amount of the Claim or part thereof as so determined by the Trustee.

ARTICLE VI

TERMINATION OF PARTICIPATION IN PLAN

SECTION 6.01. The amount of the Trust Fund, if any, standing to the credit of a Participant shall constitute the Withdrawal Credit of the Participant and such amount at any time shall be the aggregate of all payments made by or on behalf of such Participant pursuant to Article III, all income and recoveries credited to a Participant pursuant to any provision hereof, and all amounts (other than income or recoveries so credited) not distributed to a Participant pursuant to Sections 4.04 and 7.06 hereof, minus the aggregate amount of,

- (a) his *pro rata* share of any Claim subject to payment referred to in Section 3.02 (excluding any upward adjustment in such *pro rata* share made by the Trustee pursuant to Section 3.02); and
- (b) of any amounts charged hereunder against the Participant by the Trustee in respect of any amount paid out of the Trust Fund by the Trustee, whether to the Trustee or others.

SECTION 6.02

- (a) Upon compliance with the requirements of this Section 6.02 on surrender, cancellation or lapse of the registration of a Participant under *The Securities Act*, or on such Participant satisfying the Trustee and the Commission that he has joined some other plan similar to the Plan and acceptable to the Commission or on the Commission advising the Trustee that a Participant is no longer required to participate in the Plan as a condition of registration under *The Securities Act*, such Participant may apply for the withdrawal from the Plan and for the return of his Withdrawal Credit, the amount of which shall be computed at the time when the Trustee determines that all such requirements are fulfilled;

- (b) a Participant wishing to so apply for withdrawal from the Plan shall give written notice of his intention to so withdraw to the Commission and the Trustee, but may not give any such notice at any time when such Participant has failed to perform or observe any obligation or condition on his part to be performed or observed hereunder;
- (c) the Participant so withdrawing shall file with the Trustee and the Commission such financial statements and other evidence as the Trustee and the Commission may in their discretion require, to establish that the affairs of such Participant have been settled so as to preclude any Claims on the Trust Fund arising out of such affairs which cannot be satisfied out of the Withdrawal Credit applicable to such Participant and that arrangements satisfactory to the Trustee and the Commission have been made to ensure that all liabilities and obligations of the Participant which could give rise to any Claim have been met and discharged;
- (d) no Withdrawal Credit shall be paid to a withdrawing Participant until the later of the time on which there are no unpaid Claims which have been made against the Trust Fund and for which a payment would be required in respect of such Participant pursuant to Section 3.02 hereof if such Claims were paid, or six (6) calendar months following the receipt by the Trustee of the written direction of the Commission consenting to the Trustee paying his Withdrawal Credit to a Participant accompanied by an audit clearance of the Participant by the Commission;
- (e) at the time provided for under paragraph *d* of this Section 6.02 and provided the Participant has performed and observed all the obligations and conditions on his part to be performed or observed hereunder, the Trustee may in its discretion pay the amount of the Withdrawal Credit of a Participant to the withdrawing Participant, subject only to the following,
 - (i) to the extent that the financial statements and other evidence referred to in this Section 6.02 disclose unsatisfied liabilities which would qualify as Claims the amount to be paid shall be reduced and such reduction shall be applied by the Trustee to the *pro rata* payment of such liabilities, upon receipt of such satisfactory evidence and documentation in respect of such Claims as Counsel and the Trustee may require, or, if any of the events hereinafter mentioned have occurred,

- (ii) the balance of any payment after reduction, if any, as provided in the preceding subsection (i), shall be paid to any receiver or receiver and manager designated by the Commission pursuant to *The Securities Act*, in respect of the withdrawing Participant or if no such receiver or receiver and manager has been so designated, to any trustee in bankruptcy or liquidator or similar person duly appointed by law to administer the estate or affairs of the withdrawing Participant.

Any such payment shall be made by the Trustee forwarding by first class mail a cheque for the payment in the amount and to the Participant, person or company, as the case may be, at the address specified by the withdrawing Participant or other person or company to whom the payment is to be made.

SECTION 6.03. Upon payment of a Withdrawal Credit to or in respect of a Participant under Section 6.02 hereof, such Participant shall cease to be a Participant, his participation in the Plan shall cease, and he shall no longer be subject to the Plan or to any further obligation under this agreement and the Trustee may at the request and expense of the Participant, give a formal release to the Participant of all his obligations hereunder in such form and subject to such conditions as Counsel may advise.

SECTION 6.04. For the purpose of computing a Withdrawal Credit hereunder the Trustee may at any time and from time to time determine and use the cost or market value or the lower of cost or market value of all or any Approved Securities held in the Trust Fund, as the Trustee in its sole discretion shall see fit, and the Trustee shall in such event increase or decrease the Withdrawal Credit of a Participant by his proportionate share of any increase or decrease in value of Approved Securities from cost or from any previous determination hereunder, such proportionate share to be computed on such basis as the Trustee may in its sole discretion determine to be fair as among all Participants.

SECTION 6.05. In the event that a Participant who becomes such prior to becoming a registrant under *The Securities Act*, does not for any reason become such a registrant, the amount paid by such Participant to the Trustee into the Trust Fund shall be returned without interest and the Trustee shall notify the Commission forthwith of such return. Any income earned in respect of any such amount so returned shall thereafter be held by the Trustee under the Trust Fund but shall not be credited to the Withdrawal Credit of any Participant. Such amount shall be first applied to fees of the Trustee hereunder, and, second, to any Claim hereunder, and until so applied, shall form part of the capital of the Trust Fund.

ARTICLE VII

THE TRUSTEE

SECTION 7.01. The Trustee accepts the trusts herein created upon the terms and conditions of the agreement and represents and warrants that it is a corporation authorized to do business in Ontario as a trust company under *The Loan and Trust Corporations Act*. The Trustee shall not be required to give any bond or other security for the faithful performance of its duties hereunder and shall not be responsible for any diminution in the funds, securities or property of whatsoever character constituting part of the Trust Fund, or for any loss resulting from the making of any investment or from the retention in good faith for any length of time of securities or other property of whatsoever character purchased or acquired by it notwithstanding that such securities or property may not be, or may have ceased to be, income producing, or from any mistake in judgment made in good faith, or from any loss of whatsoever character unless resulting from its own fraud, gross negligence or wilful misconduct.

SECTION 7.02. The Trustee may rely and shall be protected in acting upon any resolution, certificate, statement, instrument, opinion, report, notice, request, consent, letter, telegram, cablegram or other paper or document believed by it to be genuine and to have been signed, sent or delivered by or on behalf of the proper party or parties. The Trustee may employ or retain such counsel, accountants, appraisers, or other experts or advisers as it may reasonably require for the purpose of discharging its duties hereunder; may act and shall be protected in acting in good faith on the opinion or advice of or information obtained from any of them; and shall not be responsible for any misconduct on the part of any of them.

SECTION 7.03. The Trustee may at any time resign as Trustee hereunder by giving ninety days' notice to the Commission. Either the Commission or the Participants by Participants' Request delivered to the Trustee may at any time require the removal of the Trustee hereunder on giving ninety days' notice to the Trustee. In the event of the resignation or removal of the Trustee or if the Trustee shall at any time be unable to act, the Commission shall appoint as a successor trustee a corporation authorized to do business in Ontario as a trust company under *The Loan and Trust Corporations Act* of Ontario who, upon acceptance of such appointment, shall have vested in it without further act or formality all the rights and powers given hereunder to the Trustee, and upon written request of the Commission the Trustee ceasing to act shall execute and deliver an instrument in writing transferring to such successor Trustee all the rights, powers and Trust Fund assets reposing in or with the Trustee ceasing to act, and shall do all such other acts or things necessary or desirable for the vesting of the Trust Fund assets in the successor Trustee. Upon

any such resignation or removal becoming effective the Trustee ceasing to act shall render to the Commission and to each Participant an account of its administration hereof during the period following that covered by its last annual accounting, which shall contain the information required under the provisions of Section 4.07, verified by a certificate of the Registrar of Loan and Trust Corporations of Ontario.

SECTION 7.04. Subject to Section 4.03 hereof the Trustee, in the administration of the Trust Fund, shall have power and authority,

- (a) to invest and reinvest the Trust Fund in Approved Securities and may do all acts and things and execute, acknowledge and deliver all instruments in respect thereof;
- (b) to hold in the form of cash awaiting investment or other application hereunder any portion of the Trust Fund and without limiting the generality of the foregoing the Trustee may hold the cash in any deposit or current account operated by the Trustee;
- (c) to sell, convert, assign, exchange, transfer or otherwise dispose of any Approved Securities at any time constituting part of the Trust Fund at public or private sale for such consideration and upon such terms and conditions as the Trustee shall see fit;
- (d) to vote in person or by proxy any Approved Security constituting part of the Trust Fund, to exercise personally or by general or limited power of attorney any right appurtenant to any Approved Securities or to any other property held by it at any time; to join in or dissent from and oppose the reorganization, redistribution, consolidation, merger, liquidation or sale of corporations or properties; to exchange Approved Securities for other securities issued in connection with or resulting from any such reorganization and retain such securities; to exercise or sell any rights issued upon or with respect to any Approved Securities; and to do any other act with respect to any property necessary to protect the investment of the Trust Fund in such property;
- (e) to register any Approved Security or other property held by it hereunder in its own name or in the name of a nominee with or without the addition of words indicating that such securities are held in fiduciary capacity, but the books and records of the Trustee shall at all times show that all Approved Securities and property howsoever held are part of the Trust Fund;
- (f) to compromise, adjust or settle any claims in favour of or against the Trust Fund and to conduct any litigation arising out of such claims.

SECTION 7.05. In the event that any Participant shall fail to perform or observe any obligation hereunder on its part to be performed or observed, then the Trustee may, and shall, when and to the extent requested to do so by a Participants' Request delivered to the Trustee, bring whatever legal action against such Participant which the Trustee, in its discretion deems necessary to compel such Participant to fulfil its obligations hereunder, provided that the Trustee shall only be required to take such legal action after it shall have been fully indemnified to its satisfaction by the Participants signing such Participants' request against all actions, proceedings, claims and demands to which it may thereby render itself liable and all fees, costs, charges, damages and expenses whatsoever which it may have or incur by so doing. Any amount recovered as a result of any such legal action shall form part of the Trust Fund and shall be appropriately credited to the Withdrawal Credits of such Participant, with appropriate adjustments to the Withdrawal Credits of such other Participants.

SECTION 7.06.

- (a) The Trustee may, and shall, when and to the extent requested to do so by a Participants' Request delivered to the Trustee, take all proceedings necessary to recover any moneys which may be payable by any person or company to a client on account of any Claim to which the Trustee has been subrogated as provided in Section 5.04 hereof or is otherwise entitled; the Trustee shall only be required to take such proceedings after it shall have been fully indemnified to its satisfaction by such Participants against all actions, proceedings, claims and demands to which it may thereby render itself liable and all fees, costs, charges, damages and expenses which it may incur by so doing;
- (b) in the event of any recovery by the Trustee of moneys as a result of proceedings described in Section 7.06 (a) hereof all fees, costs, charges, damages and expenses of the Trustee incurred in connection with such proceedings shall be deducted from such moneys and, subject to any other provision hereof, the balance, if any, of such moneys shall be distributed to Participants as provided in Section 7.06 (c) hereof. In the event that any moneys so recovered shall not be sufficient to defray such fees, costs, charges and expenses, the portion of such fees, costs, charges and expenses not so defrayed shall be added to the amounts payable to the Trustee under Section 7.07 hereof and shall be paid in the manner therein provided;

- (c) subject to the provisions of Section 3.08 and of paragraph (b) of this Section 7.06, all moneys recovered by the Trustee and available for distribution to Participants pursuant to this Section 7.06 shall be distributed equally among those Participants by or on behalf of whom the required payment has been made pursuant to Section 3.02 hereof on account of the Claim on which such moneys were received and (forthwith after the Commission shall have so consented) the Trustee shall distribute by first class mail to such Participants cheques representing the entitlement of such Participants pursuant to this paragraph (c) of Section 7.06.

SECTION 7.07. The Trustee's fees for performing its duties hereunder shall be such as may be mutually agreed upon from time to time between the Commission and the Trustee, and in default of such agreement, shall be as fixed by a judge of the Surrogate Court of the County of York upon application thereto by the Trustee, and the costs of such application shall be paid out of the Trust Fund, except in the case of the Trustee, in the event that the compensation so fixed is not more than the amount thereof to which the Commission was prepared to agree. The Trustee shall also be entitled to be reimbursed for any and all costs, charges and expenses reasonably incurred by the Trustee in the performance of its duties pursuant to this agreement. All such fees, costs, charges and expenses shall be deducted first from the income of the Trust Fund and in the event of any deficiency, from the capital of the Trust Fund. Fees, costs, charges and expenses of the Trustee accrued and unpaid shall be calculated on the last days of May and November in each year and shall be deducted from the income of the Trust Fund for the six month periods ended on those dates.

SECTION 7.08. The Trustee shall not exercise any discretion granted to it hereunder without first notifying the Commission of its intention to do so and giving the Commission reasonable opportunity for making any views it may have known in such respect to the Trustee prior to the exercise of such discretion.

SECTION 7.09. The Trustee shall notify the Commission promptly of any Default of any Participant; of any Claim made in respect thereof; of any failure by a Participant to perform any obligation or condition on his part to be performed or observed hereunder; and shall furnish the Commission with all such other information, records and documents in its possession in connection with this agreement and its administration of the Trust Fund as the Commission may from time to time reasonably request.

ARTICLE VIII

AMENDMENT AND TERMINATION

SECTION 8.01. The Trustee may agree to amendments of this agreement, subject to the approval of the Participants, evidenced by a Participants' consent delivered to the Trustee, and the approval of the Commission, provided however that no such amendment shall be effective to prevent the payment of any Claim which but for the amendment the Trustee would have determined to pay out of the Trust Fund.

SECTION 8.02. This Plan shall only be terminated at such time when all Participants have withdrawn from the Plan in accordance with the provisions of Article VI hereof.

ARTICLE IX

MISCELLANEOUS

SECTION 9.01. Notwithstanding any other provisions hereof, nothing herein contained shall be deemed to give any Participant any interest or right hereunder except the right to receive such payments out of the Trust Fund, if any, as may from time to time be determined by the Trustee in its discretion, or in default of the exercise by the Trustee of such discretion after one year following termination of the Plan, in accordance with the Withdrawal Credits of each Participant at the time of termination of the Plan.

SECTION 9.02. No assignment, anticipation, surrender, pledge or encumbrance of any kind of any rights of Participants or other persons to receive funds pursuant to this agreement shall be permitted or recognized under any circumstances and any such rights shall not be subject to attachments or other legal processes for debts of such Participants or other persons.

SECTION 9.03. In order to protect the Trust Fund against depletion as a result of litigation, no Participant or person claiming under or against it shall bring legal or equitable action against the Trustee or the Trust Fund for any matter or cause whatsoever, except that the Participants by Participants' Request delivered to the Trustee and the Commission may claim against the Trustee for any loss resulting from the fraud, gross negligence, or wilful misconduct of the Trustee, and in default of a satisfaction or settlement of such Claim between the Trustee and the Participants as evidenced by a Participants' Consent, any Participant may commence such action or other proceeding as it may see fit against the Trustee, but in no event shall any part of the Trust Fund be attachable or otherwise made available to satisfy or settle any such claim or judgment or other court order in respect thereof.

SECTION 9.04. All information, records and documents of any kind whatsoever about any of the Participants or any officer, director or shareholder of any thereof or relating to the business relations between the Participant and any other person at any time in the possession or control of either the Trustee or the Commission and howsoever obtained, may be freely exchanged between the Trustee and the Commission; and no Participant or any such officer, director or shareholder shall have any claim of any kind whatsoever against either of the Commission or the Trustee arising from or out of the exchange of any information by either the Commission or the Trustee or its use in good faith by either the Trustee or the Commission for any purpose hereof or of *The Securities Act*; provided that nothing herein shall constitute an obligation of the Commission to furnish or disclose any information to any of the Trustee or the Participants or any other person.

SECTION 9.05. The Trustee, or any person to whom as its representative it may in writing delegate such authority, may enter upon the premises of a Participant and examine such books, documents and records of the Participant and make copies of such books, documents and records which, in the opinion of the Trustee or its representative, are necessary to assist in determining the validity of a Claim or in the exercise of any discretion hereunder and no person is, as against the Trustee, entitled to withhold possession of the aforesaid books, documents and records belonging to the Participant or set up any lien thereon; all fees of and costs, charges and expenses incurred by the Trustee in conducting such examination shall be added to the fees, costs, charges and expenses of the Trustee payable under Section 7.07 hereof and shall be paid in the manner therein provided.

SECTION 9.06. If at any time the Trustee is in doubt as to whether or not a person is a client of a Participant and/or whether or not such a person has a valid Claim under the terms hereof, it may apply to the Supreme Court of Ontario under the provisions of Regulation 545 of Revised Regulations of Ontario, 1970, (Rules of Practice of Supreme Court of Ontario) and any amendments thereto passed pursuant to the provisions of *The Judicature Act*, and amendments thereto, for a construction of the relevant Sections hereof and directions as to whether or not the person is a Client and/or has a valid Claim under the terms hereof or the extent to which such person has a valid Claim under the terms hereof; all fees of and costs, charges and expenses incurred by the Trustee in connection with any such application shall be added to the expenses of the Trustee payable under Section 7.07 hereof and shall be paid in the manner therein provided. The decision of the Supreme Court of Ontario as to whether or not a person is a client of a Participant and/or whether or not such a person or the extent to which such a person, has a valid Claim, shall be

conclusive and binding, provided that no such decision of the Supreme Court of Ontario shall in any way affect the discretion of the Trustee to appoint or not to appoint any part of the Trust Fund in respect of such a Claim.

SECTION 9.07. Nothing herein shall under any circumstances whatsoever give any person any right, demand or claim of any kind whatsoever against or in respect of the Commission.

SECTION 9.08. Wherever an amount is recovered by the Trustee in respect of which a Participant has previously made or was liable to make but has not yet made a payment into the Trust Fund pursuant to any provision hereof, the appropriate share of the amount so recovered shall be credited to the Withdrawal Credit of such Participant; and the action

by the Trustee in crediting or re-crediting an appropriate share shall be final and binding on all Participants.

SECTION 9.09. Any notice to a Participant under the provisions hereof shall be valid and effective if given by registered letter, postage prepaid, addressed to the Participant at his last address with the Commission, and shall be deemed to have been received by the Participant when in ordinary course of post the said letter should have reached its destination.

SECTION 9.10. This agreement shall be binding upon, and, subject to the provisions of Section 4.09, 9.01, 9.02 and 9.03 hereof, shall enure to the benefit of the parties hereto and their respective heirs, executors, administrators, successors and assigns. - (b) State the particulars of any provisions or arrangements made for holding any part of the net proceeds of the issue in trust or subject to the fulfilment of any conditions.

Instructions:

1. Details of proposed expenditures are not to be given except as otherwise required hereunder. If any substantial part of the proceeds has not been allocated for particular purposes, a statement to that effect shall be made together with a statement of the amount of the proceeds not so allocated.
2. Include a statement regarding the proposed use of the actual proceeds if they should prove insufficient to accomplish the purposes set out, and the order of priority in which they will be applied. However, such statement need not be made if the underwriting arrangements are such that, if any securities are sold to the public, it can be reasonably expected that the actual proceeds of the issue will not be substantially less than the estimated aggregate proceeds to the issuer as shown under Item 1.
3. If any material amounts of other funds are to be used in conjunction with the proceeds, state the amounts and sources of such other funds. If any material part of the proceeds is to be used to reduce or retire indebtedness, this item is to be answered as to the use of the proceeds of the indebtedness if the indebtedness was incurred within the two preceding years; otherwise, it will suffice to state that the proceeds are to be used to reduce or retire the indebtedness.
4. If any material amount of the proceeds is to be used directly or indirectly to acquire assets, otherwise than in the ordinary course of business, briefly describe the assets, and, where known, the particulars of the purchase price being paid for or being allocated to the respective categories of assets (including intangible assets) that are being acquired and, where practicable and meaningful, give the name of the person or company from whom the assets are to be acquired. State the cost of such assets to the issuer and the principle followed in determining such cost. State briefly the nature of the title to or interest in such assets to be acquired by the issuer. If any part of the consideration for the acquisition of any such assets consists of securities of the issuer, give brief particulars of the designation, number or amount, voting rights (if any) and other appropriate information relating to such

class of securities, including particulars of any allotment or issuance of any such securities within the two preceding years.

Instructions:

1. Where there is more than one class of debt, the Prior Deductions Method of calculating interest coverage consists of first deducting the carrying charges related to the senior issue(s) from available earnings and then calculating the number of times interest on the issue in question is covered by the remaining earnings. On the Cumulative Deductions Method the total carrying charges of all debt ranking ahead of or *pari passu* with the issue in question is divided into available earnings.

3. If any of the securities offered are to be offered for the account of existing securityholders (secondary distribution), refer on the first page of the prospectus to the information called for by Instruction 3 to Item 19.
4. If the securities are not to be offered to the public at a fixed price, the information called for by the Table may be given in narrative form.
5. Where Instruction 4 is not applicable the information called for by the Table may only be given in narrative form with the consent of the Director.

- (c) State briefly the discounts and commissions to be allowed or paid to persons or companies registered under the Act, if not disclosed in Item 1, including all cash, securities, contracts or other consideration to be received by any such person or company in connection with the sale of the securities.
- (d) Outline briefly the plan of distribution of any securities being offered that are to be offered otherwise than through underwriters.

Instructions:

1. All that is required as to the nature of the underwriters' obligation is whether the underwriters are or will be committed to take up and pay for all of the securities if any are taken up, or whether the underwriting is merely an agency or "best efforts" arrangement under which the underwriters are required to take up and pay for only such securities as they may sell to the public. Conditions precedent to the underwriters' taking up the securities, including "market outs", need not be described except to the extent that such conditions precedent are not satisfied prior to the commencement of the sale of the securities to the public.
2. Describe the options, stating the material provisions including, (i) the designation and number of the securities called for by such options; (ii) the purchase prices of the securities called for and the expiration dates of such options; and (iii) the market value of the securities called for by such options as of the latest practicable date.

Give details of the arrangements made for, and the persons responsible for the supervision of the trust or escrow account or the investments of unallocated funds and the investment policy to be followed. Where unallocated funds are to be added to working capital, indicate the reason for doing so.

2. Include a statement regarding the proposed use of the actual proceeds if they should prove insufficient to accomplish the purposes set out, and the order of priority in which they will be applied. However, such statement need not be made if the underwriting arrangements are such that, if any securities are sold to the public, it can be reasonably expected that the actual proceeds of the issue will not be substantially less than the estimated aggregate proceeds to the issuer as shown under Item 1.
3. If any material amounts of other funds are to be used in conjunction with the proceeds, state the amounts and sources of such other funds. If any material part of the proceeds is to be used to reduce or retire indebtedness, this item is to be answered as to the use of the proceeds of the indebtedness if the indebtedness was incurred within the two preceding years; otherwise, it will suffice to state that the proceeds are to be used to reduce or retire the indebtedness.
4. If any material amount of the proceeds is to be used directly or indirectly to acquire assets, otherwise than in the ordinary course of business, briefly describe the assets, and, where known, the particulars of the purchase price being paid for or being allocated to the respective categories of assets (including intangible assets) that are being acquired and, where practicable and meaningful, give the name of the person or company from whom the assets are to be acquired. (2) If the party so notified requires the seizure to be maintained, he shall within five days after such notice to him pay to the clerk a sum of money sufficient to secure to the clerk and bailiff their costs of an interpleader and an interpleader summons shall be issued.

(3) If the party so notified does not pay such sum, the bailiff may abandon the seizure and the party shall pay to the bailiff his costs of the seizure and any damages that the bailiff is subsequently directed to pay as a result of the seizure. R.R.O. 1960, Reg. 116, r. 7.

8. Where property is seized or attached while in the possession of the claimant, the case shall proceed with the attaching creditor as plaintiff and the claimant as defendant, and in all other cases it shall proceed with the claimant as plaintiff and the execution creditor or attaching creditor as defendant. R.R.O. 1960, Reg. 116, r. 8.

9. The claimant shall, within five days after the day of service of the summons upon him, deliver to the bailiff or leave at the office of the clerk of the court particulars of the property claimed by him and the grounds and particulars of his claim or, in case of a claim for rent, the amount and particulars thereof, but by consent of all parties, or without such consent if the judge so directs, an interpleader claim may be tried, although these rules may not have been complied with. 16.—(1) The bailiff shall, before acting on the summons, obtain from the plaintiff a bond with two or more sureties satisfactory to the bailiff or to the judge in double the value of the property to be replevied as stated in the summons, and the bond shall be assignable to the defendant.

(2) Instead of furnishing a bond, the plaintiff may pay into court to the credit of the action an amount equal to double the value of the property to be replevied and such payment is in lieu of the bond and is subject to the same terms, conditions and disposition as a bond. R.R.O. 1960, Reg. 116, r. 16.

17.—(1) In accordance with the summons in replevin, the bailiff shall take and detain the property until otherwise directed by the judge or the judgment in the action.

20. Where a summons in replevin is issued, the defendant may at any time prior to judgment, on two days notice to the plaintiff, apply to the judge on affidavit to discharge or vary the summons or to stay proceedings thereunder or for any other relief specified in the notice, and the judge may make such order as to him seems meet. R.R.O. 1960, Reg. 116, r. 20.

21. Where the defendant has been duly served with a copy of the claim and summons in replevin, then, unless he has left a notice in writing that he intends to dispute the claim with the clerk within the time prescribed in the summons, the plaintiff may proceed with the action in the same manner as if the defendant had appeared and had admitted the plaintiff's right to the possession of the property, and final judgment may be entered by the clerk and the property shall then be delivered by the bailiff to the plaintiff and the plaintiff may proceed at the next sittings of this court as if the defendant had appeared and had admitted the plaintiff's right to the possession of the property. RULES OF PRACTICE

APPLICATIONS FOR PROBATE, ADMINISTRATION, AND GUARDIANSHIP

1. Every application for probate or administration or guardianship shall be made by petition prepared, signed and presented by the applicant or his solicitor. R.R.O. 1960, Reg. 551, r. 1.

2. The petition shall set forth the facts that are necessary and upon which the applicant relies for a grant and shall show the value of the real property and of the personal property that would be affected by the grant; and all such facts, including the statement of value, shall be verified upon oath. R.R.O. 1960, Reg. 551, r. 2.

3. Where there is more than one applicant, separate forms of affidavit shall be used. R.R.O. 1960, Reg. 551, r. 3.

4.—(1) In the petition and supporting material, the deceased and every person referred to shall be described by his given name or names and surname, and, if commonly known otherwise, the true name shall be followed by the words "commonly known as" followed by the name by which he is commonly known.

(2) Where the name contains a distinguishing letter, not being the first letter of a given name, that fact shall be shown in the petition and supporting material. R.R.O. 1960, Reg. 551, r. 4.

5.—(1) The petition shall show the deceased was at the time of his death unmarried, married, a widower or divorced. R.R.O. 1960, Reg. 551, r. 5.

(2) Upon an application for a grant in respect of the whole or any part of the property of the deceased, it shall be shown whether any marriage of the deceased, or of any person with whom he went through a form of marriage, has been dissolved or annulled, and, if so, the particulars of the dissolution or annulment. O. Reg. 206/66, s. 1.

(3) Where it appears that a marriage of the deceased may have been dissolved or annulled, there shall be shown the name and address of any person with whom the deceased may have gone through a form of marriage and the names and addresses of all issue of any such marriage. O. Reg. 206/66, s. 1.

6. No probate or letters of administration with the will annexed shall issue until after the lapse of seven days from the death of the testator, and no letters

of administration shall issue until after the lapse of fourteen days from the death of the intestate, unless, in either case, the judge otherwise directs. R.R.O. 1960, Reg. 551, r. 6.

7. Where two or more applications for a grant are made, the judge shall determine upon a summary application which prevails. R.R.O. 1960, Reg. 551, r. 7.

PROBATE

8. On an application for probate or for administration with the will annexed, the due execution of the will shall be proved by one of the subscribing witnesses whose name, address and occupation shall be given in full, but, if it be shown that the subscribing witnesses are dead, or if from other circumstances an affidavit cannot be obtained from either of them, the due execution of the will may be established by other evidence. R.R.O. 1960, Reg. 551, r. 8; O. Reg. 206/66, s. 2.

9. Where the testator executed the will by making his mark, the proof shall show that before its execution it was read over to him and that he had a knowledge of its contents and appeared to understand it perfectly. R.R.O. 1960, Reg. 551, r. 9.

10. Proof of due execution shall be made in respect of every will and of every codicil thereto. R.R.O. 1960, Reg. 551, r. 10.

11. No affidavit of execution of a will or codicil and no affidavit of plight shall be sworn by a witness to the will or codicil before another witness to the will or codicil. R.R.O. 1960, Reg. 551, r. 11.

13. The will shall be marked as an exhibit to the affidavit of the applicant and shall be identified by his signature and shall be marked as an exhibit to the affidavit proving due execution. R.R.O. 1960, Reg. 551, r. 13.

14. Where in a will there appear interlineations, alterations, erasures or obliterations that have not been attested, such interlineations, alterations, erasures or obliterations shall not be regarded or included in the probate unless it is shown that they existed in the will before its execution or have been rendered valid by republication of the will or by the subsequent execution of a codicil thereto. R.R.O. 1960, Reg. 551, r. 14.

15. Where words have been erased or obliterated that may have been of importance, or where the appearance of the will is such as to indicate an attempted cancellation by burning, tearing or the like, or where any suspicious circumstances exist, probate shall not be granted until all such matters have been explained to the satisfaction of the judge. R.R.O. 1960, Reg. 551, r. 15.

16. If a will is not dated or is dated imperfectly, one of the attesting witnesses shall furnish evidence of the date of execution, or, where such evidence cannot be obtained, evidence shall be furnished of the execution between two definite dates, or that search has been made and that no will of presumably later date has been found. - (b) that neither witness to the will is a beneficiary or the husband or wife of a beneficiary named therein, or, if so, that a named beneficiary or the husband or wife of a named beneficiary is such a witness;
- (c) that the deceased did not marry after the execution of the will, or otherwise, as the fact may be; and
- (d) by a certificate of the registrar that no will of later date than the will tendered has been deposited in his office. R.R.O. 1960, Reg. 551, r. 17; O. Reg. 206/66, s. 3.

18. Where, by reason of the fact that a beneficiary or the husband or wife of a beneficiary witnesses a will, the provisions made therein for such beneficiary are void, such fact shall be endorsed on the will by the registrar, and such endorsement shall appear on the copy of the will attached to the grant. R.R.O. 1960, Reg. 551, r. 18.

DOUBLE PROBATE

19.—(1) Where all of the executors named in a will have not made application for probate and the right has been reserved to one or more of them to make application for probate at some future time, or, if an alternative executor is called upon to complete the administration, and, in either case, if it is desired to have the appointment of such executor or executors confirmed by the court, the grant for which the application is made shall be termed "double probate".

(2) The application shall state, in addition to the fact of the original probate having been granted to the original applicant, the reason for the second application.

27. The application shall be similar in form to the original application for administration and shall recite the particulars of the first grant and that the administrator has died leaving part of the assets of the estate unadministered and the grounds on which the applicant is making claim to the grant. R.R.O. 1960, Reg. 551, r. 27.

28. The inventory shall contain only the unadministered property with values as of the date of the application. R.R.O. 1960, Reg. 551, r. 28.

R.R.O. 1960, Reg. 551, r. 31.

32. The application shall be similar in form to the original application and shall recite the facts of the death of the executor or administrator, the names of all the beneficiaries who still have an interest in the estate and the grounds on which the applicant is making claim to the grant. ANCILLARY GRANTS

36.—(1) Where a foreign court of competent jurisdiction has granted probate or administration with the will annexed of an estate that consists, in Ontario, of personalty only, and application for ancillary probate or administration with the will annexed is made and it is shown that the executor or administrator is by the law of the domicile of the deceased entitled to receive the personalty, and the inventory required by section 56 of *The Surrogate Courts Act* is filed, ancillary letters shall be issued.

(2) Where the whole or part of the estate consists, in Ontario, of realty, it shall also be shown that the will was executed in a manner sufficient to pass realty in Ontario. R.R.O. 1960, Reg. 551, r. 36 (1, 2).

(3) It is not necessary to produce the original will, but an exemplification of the foreign grant shall be marked as an exhibit to the affidavit of the applicant, identified by his signature and filed. O. Reg. 206/66, s. 5.

RESEALING

37.—(1) Every application for resealing shall be by petition and all material facts shall be verified by affidavit except that the grant sought to be resealed may be accepted as proof of death and, in case of testacy, of the execution of the will and that it is the last will of the deceased and, in case of intestacy, that the deceased left no will.

(2) A certified copy of the grant sought to be resealed shall be filed. R.R.O. 1960, Reg. 551, r. 37.

(See section 76 of *The Surrogate Courts Act*.)

SECURITY TO BE GIVEN

38. The security to be given by administrators, foreign executors and guardians shall be by the bond of a guarantee company or by personal bond in the appropriate form with due affidavits of execution and justification to the satisfaction of the judge who may, if he deems it necessary, require the personal attendance of the sureties before him for examination. R.R.O. 1960, Reg. 551, r. 38.

(As to bonds of guarantee companies, see *The Guarantee Companies Securities Act*.)

39.—(1) The sureties in administration and guardianship bonds, if not a guarantee company, shall justify to an amount or amounts which in the aggregate shall equal the amount of the penalty in the bond and each surety shall be of the full age of twenty-one years and shall so declare.

(2) Where the value of the property is \$400 or less, one surety is sufficient, and, where the value of the property is greater than \$400, at least two sureties are required unless the judge otherwise directs.

(3) In the case of an administration *de bonis non*, the bond shall be based upon the value of the unadministered assets.

(4) No registrar or solicitor shall be surety to any such bond. R.R.O. 1960, Reg. 551, r. 39.

40.—(1) Any person interested in an estate may file a memorandum requiring notice to be given to him of the consideration of the bond and he shall then be served with an appointment to inquire into its sufficiency.

(2) The judge may, if he disallows the bond, permit a new bond to be filed, but shall not allow the grant to issue until satisfied that adequate security has been furnished. R.R.O. 1960, Reg. 551, r. 40.

41. If the judge has reason to believe that the value of the property of the deceased or of the ward, exceeds the sum stated by the applicant, he may inquire into the matter in a summary way and determine the amount of security to be given. R.R.O. 1960, Reg. 551, r. 41.

42. Where a grant has issued and it is shown to the satisfaction of the judge that the sureties are not sufficient, he may direct the guardian, administrator or foreign executor to furnish further security and, in default, may revoke the grant or suspend its operation. R.R.O. 1960, Reg. 551, r. 42.

(See sections 59 to 67 of *The Surrogate Courts Act*.)

INTERVENTION

43.—(1) Any person interested may intervene by filing a notice in the prescribed form (Form 35) and an affidavit showing the nature of his interest. R.R.O. 1960, Reg. 551, r. 43 (1); O. Reg. 206/66, s. 6.

(2) A copy of the notice and affidavit shall be served upon the applicant by the intervener as soon as may be after filing.

(3) Notice of all proceedings thereafter shall be given to the intervener. R.R.O. 1960, Reg. 551, r. 43 (2, 3).

CAVEATS

44. At any time before grant is sealed, any person interested in an estate may by a caveat filed in the office of the Registrar of the Supreme Court, if no certificate under section 41 of *The Surrogate Courts Act* has been forwarded, or in the office of the registrar, require that nothing be done with reference to the estate of the deceased without notice being first given to him or his solicitor. R.R.O. 1960, Reg. 551, r. 44.

45. If the caveat or a copy thereof is filed in the office of the Registrar of the Supreme Court, he shall transmit a copy of it to the registrar with his certificate under section 41 of *The Surrogate Courts Act*, and such caveat shall thereupon be deemed to be filed with the registrar. R.R.O. 1960, Reg. 551, r. 45; O. Reg. 206/66, s. 7.

46. Notwithstanding the filing of a caveat, an application may be made for a grant, and notice of the application may be sent to the Registrar of the Supreme Court, but no further proceedings shall be taken upon such application without notice being given to the person filing the caveat, unless he consents, until the caveat has been removed. R.R.O. 1960, Reg. 551, r. 46.

47.—(1) The party filing a caveat shall declare therein the nature of his interest in the property of the deceased and state generally the grounds upon which he enters the caveat, and the caveat shall be signed by the party, or by his solicitor on his behalf, and an address shall be given at which service may be effected.

(2) The caveat shall be accompanied by an affidavit of the person filing the caveat or of some person on his behalf showing the nature of his interest and that the caveat is not entered for the purpose of delay or to embarrass any person interested in the estate. R.R.O. 1960, Reg. 551, r. 47.

48.—(1) A caveat remains in force for six months after it is filed unless it is sooner withdrawn and thereafter it is of no effect but at any time thereafter another caveat may be filed.

(2) A caveat may be withdrawn at any time upon the order of the judge. R.R.O. 1960, Reg. 551, r. 48.

49.—(1) Where a vexatious caveat is filed, the judge may order it to be vacated.

(2) Upon an application to vacate a caveat, the judge may give all directions necessary for a speedy trial. R.R.O. 1960, Reg. 551, r. 49.

50.—(1) Where an application for probate or administration is made and a caveat has been or is thereafter filed at any time before grant is sealed, the registrar shall send a warning to the person who entered the caveat, by registered mail, addressed to him at the place named in the caveat. R.R.O. 1960, Reg. 551, r. 50 (1).

(2) Such warning shall state the nature of the application made and give the name and address of the applicant, and, if a will is propounded, give the date of the will and shall call upon the person entering the caveat to enter an appearance in ten days if he desires to contest the application. R.R.O. 1960, Reg. 551, r. 50 (2); O. Reg. 206/66, s. 8.

DIRECTIONS FOR TRIAL

51.—(1) If an appearance is entered, an application shall be made to the judge for the purpose of adding all necessary parties and for ordering the service of such citations as are necessary.

(2) A person served with a citation and desiring to be heard shall file an appearance in the office of the registrar within such time as is set out in the citation or within such further time as the judge allows and, in default of filing such appearance, he is not entitled to notice of any further proceeding.

(3) At the expiration of the time limited for the entry of appearance, the applicant shall apply to the registrar for an appointment for further directions and shall, at least four clear days before the return of the appointment, serve a copy thereof upon all persons who have appeared.

(4) Upon the return of the appointment, the judge shall settle the issues, determine whether pleadings are to be delivered, whether production of documents and discovery are necessary, shall give all further necessary directions and fix the mode of trial. R.R.O. 1960, Reg. 551, r. 51.

52.—(1) Upon an application for proof of a will in solemn form or for revocation of a probate or where in any proceedings the validity of a will is disputed, the judge shall direct that all persons having an interest in upholding or attacking the validity of the will be made parties to the proceeding.

(2) Such parties shall be served with a citation calling upon them to enter an appearance and warning them that in default they will be bound by the result of such proceedings as are taken in their absence.

(3) All parties entering an appearance shall be served with notice of the application for directions concerning trial. R.R.O. 1960, Reg. 551, r. 52.

(See *Supreme Court Rules 75-77 as to Class Representation*).

CITATION TO ACCEPT PROBATE

53.—(1) Where an executor fails to bring in a will for probate, any person interested may cite the executor to accept or refuse the probate and execution of the will, or to show cause why probate or administration with the will annexed, as the case may be, should not be granted to the applicant or to such other person having the prior right thereto who is willing to accept the same.

(2) No such citation shall issue until after the lapse of fourteen days from the testator's death. R.R.O. 1960, Reg. 551, r. 53.

CITATION TO BRING IN WILL

54. Where it is shown to the satisfaction of the judge that any testamentary document may be in the custody of a person, a citation may be issued to such person, calling upon him to deposit in the office of the registrar any testamentary document in his possession or control, or to state under oath that no such document is in his possession or control. R.R.O. 1960, Reg. 551, r. 54.

55. Where it is shown to the satisfaction of the judge that a person has knowledge of any will or other document or any asset relating or belonging to an estate, a subpoena may by leave of the judge be served upon such person calling upon him to attend at a time and place to be named and to be examined touching the same. R.R.O. 1960, Reg. 551, r. 55.

CITATION WHERE INTESTACY

56. When upon an intestacy letters of administration have not been issued, any person interested may before himself applying for grant cite those having a prior right to accept or refuse administration and, in default of application being made by them, he may file his own petition and proofs. R.R.O. 1960, Reg. 551, r. 56.

ORDER TO BRING IN GRANT FOR REVOCATION

57. Where it is sought to revoke a grant, a citation may issue calling upon the person in whose favour the grant has been made to bring the grant into the registrar's office within the time specified in the citation and, pending the determination of the proceedings, the person holding the grant shall not act thereunder without the leave of the judge. R.R.O. 1960, Reg. 551, r. 57.

GUARDIANSHIP

58. Upon an application for guardianship, there shall be shown the names of the parents and their place of abode, the time of their death if they be dead, the names and places of abode of the infants, the relationship of the applicant to them, the value of the real and personal property of the infants and the annual value of such property with particulars thereof and such other proof as the judge requires. R.R.O. 1960, Reg. 551, r. 58.

59. A caveat against the grant of letters of guardianship may be filed and the practice with respect to the caveat shall conform as nearly as may be to the practice in the case of caveats against the grant of probate. R.R.O. 1960, Reg. 551, r. 59.

PASSING OF ACCOUNTS

60. Executors, administrators, trustees under a will and guardians of infants may pass their accounts voluntarily or they may be called upon

by citation to do so on the application of any person interested therein. R.R.O. 1960, Reg. 551, r. 60.

(See sections 23 and 62 of *The Trustee Act*.)

NOTES

1. The morbid conditions relating to a stillbirth are divided into two groups. In Group 1 are those conditions causally related to the "IMMEDIATE CAUSE" and in Group 2 those not causally related thereto. In most cases the completion of Group 1 will be sufficient. When it is necessary to record more than one entry, these should be stated in order so as to indicate their mutual relationship.
2. Follow these instructions:
 1. Name first the "Immediate Cause" of death, i.e., the disease, injury or complication that caused death (not mode of dying or terminal condition).
 2. Then give other morbid conditions (if any) of which the immediate cause was the consequence, in order of causal relationship, stating the most recent one first and then the others in order.
 3. Group 2 is reserved for other important contributory morbid conditions, particularly when death was due to a combination of maladies, none of which would have been fatal alone.
 4. Use accepted terms for morbid conditions and never record mere symptoms only.

I attach the following:

1. A statement of stillbirth, in Form 7.
2. A statutory declaration, in Form 10.
3. Fee of \$2.
4. The following Classevidence of stillbirth:

(2) The several operations in an industry shall not be segregated and shall not be given a separate rate of assessment, except that,

- (a) where operations in each of two or more subclauses or groups of industries are so intermingled as to make difficult the apportionment of the cost of accidents happening in the operations to the appropriate subclauses or groups, the operations shall be rated and assessed separately, but the amounts received shall be allocated to the class, subclass or group of industries to which the preponderant part of the industry belongs;
- (b) where an employer carries on operations in each of two or more classes, subclasses or groups of industries, each operation being carried on as a business or trade or for profit or gain and there is a definite segregation of payrolls, each operation may be dealt with as an industry and may be separately rated and assigned to the class, subclass or group to which that industry would ordinarily belong;
- (c) where an employer has operations bearing different rates of assessments and general operations or payrolls that are common to all, for purposes of assessment the payroll for the general operations shall be apportioned *pro rata* at the different rates;
- (d) building-construction work, excluding ordinary wear and tear repair work, ordinarily done by employers in Class 24, where the yearly payroll exceeds \$1,000, shall be segregated and separately rated;

(4) Where an associated employer performs any service which normally would be an integral part of an industry or business named in Part I of the Act, the associated employer shall be classified and rated the same as the industry for which the service is performed and where more than one rate of assessment is involved, the payroll for the associated employer shall be apportioned *pro rata* at the different appropriate rates. O. Reg. 347/63, s. 2.

7.—(1) The increase of assessment that the Board may levy under subsection 7 of section 86 of the Act shall be levied where an employer within an individual rating classification,
